FREE, AND IT TAKES A MINUTE

1 Create your account

Everything starts with a free corporate account. Add your company details and a logo once, and the builder remembers them for every design and order after that.

- 1 The page walks you through all seven stages, from sign-up to delivery, so there are no surprises later.
- 2 Your account holds your pricing, your saved logo and your delivery details.
- 3 New here? Choose **Create your account**. Already registered? Use **Log in**.

GOOD TO KNOW

Your own pricing and minimum order quantities are tied to your account, so you always see your numbers rather than a generic price list.

GUTSTRONOMY · CORPORATE GIFTING

A free account gets you your pricing and MOQs, saves your delivery/company details for next time, and lets you track every order.

The sign-up page lays out the whole journey, from design to delivery.

KNOW THE NUMBERS BEFORE YOU DESIGN

2 Your dashboard: pricing and budget

Your dashboard shows your account's price per pack (ex VAT) and the minimum order quantity for each, and lets you test a budget before you commit to anything.

- 1 **Pricing for your account** lists every pack with its unit price and MOQ.
- 2 **Start a new design** takes you straight into the builder.
- 3 The **budget estimator** adds delivery and 15% VAT so you see a realistic total. It does not create a design or an order.
- 4 **Email me this estimate** sends the numbers to you, or to whoever signs off the budget. No account needed on their side.
- 5 **Your designs** keeps every design you have made, with its status.

GOOD TO KNOW

Try a few quantities against your budget first, then design with confidence.

Pack	Unit price (R, ex VAT)	MOQ
Large Jar	R250.00	12
Large Pack	R180.00	10
Mini Pack	R115.00	20
Mini Jar	R149.00	12

Plus a base delivery fee of R300.00 per order if shipping. All prices exclude VAT - your exact total is confirmed once your design is approved.

STEP 1 OF 4 IN THE BUILDER

3 Pick a pack size

Choose the pack your label is for. The label and the packaging mockup on the left switch to match, so you design on the real shape.

- 1 Large Jar, Large Pack, Mini Pack and Mini Jar, each with a **Festive** twin for the season.
- 2 The size under the chips confirms the print dimensions of your label.
- 3 **Continue** moves you on. You can jump between the four steps at any time.
